

Nature's in the City Too!

Found a scallop shell?
Counted the fins on
a fish?

What is buttermilk?
Was a prune a plum?

What is veal?
What is tripe?

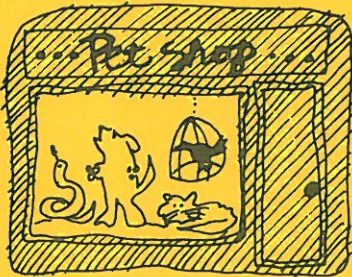

Every vacant lot
has a plant
or two.

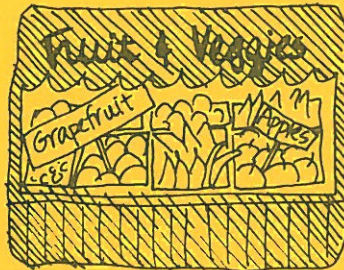

People's windows
and window
boxes would keep
you busy for months.

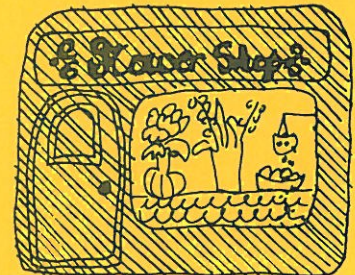

Every tree has
buds, leaves,
flowers, and
fruit. Watch for them.

Know the care of
common pets?

Don't throw away the
seeds. Plant them.

Learn to name
them.

To say
nothing
of . . .
